### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: claims 1-7 are allowed because, the prior art of record specifically Fantone et al. (US 5,661,816) fails to specifically teach finding roots of the resultant product vectors for each of said predetermined paths, subtracting from each of said roots a minimum offset term to obtain a point spread function spatial spectrum (MTF), dividing each discrete transform of said vectors by said MTF and taking the inverse discrete transform to yield a restored distortion-reduced image of claims 1 and 2 combined with other features and elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Other prior art cited***

2. Prior art of record cited and not relied upon is considered pertinent to applicant's disclosure.

The US Patent 6,511,180; US Patent Application 20030001098 and US Patent 5,193,124 variously teach image degradation related to applicant's invention as claimed.
